- Tools: MS Excel, Power BI

PROJECTS

Movie Recommendation System

In this project, I utilized my skills in machine learning to design and implement a Content-Based Movie Recommendation System. The system enhances user experience by providing personalized movie suggestions based on individual user preferences and characteristics.

Login and Registration Page

Built a secure login and registration system with OTP verification and access-controlled product pages. Added light and dark theme support for enhanced user experience.

INTERNSHIPS

BHARAT INTERN

Personal Portfolio

Created a responsive portfolio website using HTML, CSS, and JavaScript to showcase my skills and projects.

TECHNOHACKS EDUTECH INTERN

Netflix Clone

Developed the user interface of netflix using HTML and CSS, designed to replicate the user interface.

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge and belief.
